

FORWARD

This premise is a work to show God's work with the strangers of the Old Testament who became the Gentiles of the Act's period.

This work will lend support to show the reasons why we have so many different beliefs and denominational churches today.

There has been a tremendous struggle among all religious groups because of the witness of the Acts period. We will show where the Acts church is not the present day church.

Some that believe only traditional history of the church will not be convinced otherwise, even if we present the facts from the scriptures about the church, never-the-less, I pray that all might receive a blessing from reading this book.
